1. In the absence of [REDACTED] I would personally like to advise you of the circumstances connected with the transmission of reference (a).
2. Reference (c) was received in the Division on 16 October 1953 and transferred to the Logistics Office on 20 October 1953, the same day that reference (a) was cabled. However, due to an oversight, working level collaboration was not effected which would have revealed that the information was already a matter of record in Headquarters. The unnecessary initiation of reference (a) and the hasty coordination of same may be attributed to a great extent to the personal interest of senior officials of KUBARK in this shipment.
3. Please understand that Headquarters is entirely satisfied with the Mission's handling of the case.
